EDUCATION

University of Pennsylvania, Philadelphia, PA

August 2015 – May 2019

- Bachelor of Arts in Cognitive Science, Fine Arts
- Cumulative GPA: 3.94/4.00
- Honors: Summa Cum Laude, Member of Phi Beta Kappa, Penn Dean's List 2015 - 2019

WORK EXPERIENCE

Riiid Labs (\$250M raised), Seattle, WA

August 2021 – April 2022

Product Manager

- Conducted market research, competitor analysis, user interviews to define project goals and high-level requirements.
- Defined personas, project roadmaps, and detailed requirements to create backlogs of user stories for development.
- Collaborated with designers and engineers to produce wireframes, A/B testing strategies, and technical specifications.
- Led the development process from building the applications to planning their go-to-market and maintenance strategies.

Selected Project Experience

- Launched a standardized test prep app with AI features such as score prediction and personalized practice sets, and a new admin management platform for Riiid's \$3 million partnership with a leading Latin American EdTech company.
- Standardized Riiid's product success analysis workflow by defining KPIs and associated metadata to send from Riiid's products to Amplitude and creating a master dashboard to track user, performance, and revenue data.
- Led the version 2.0 development of Riiid's live math problem scanner app. Helped redesign multiple high-profile features including push notifications and AI-driven search flow and doubled MAU to 700,000.

Adobe, San Francisco, CA

July 2019 – August 2021

Business Consultant & Product Owner

- Defined project roadmaps and feature requirements for large enterprise engagements totaling over \$30+ million.
- Designed site architecture, assets taxonomy, and metadata properties that optimize content search and management.
- Facilitated cross-functional scrum ceremonies such as sprint planning, internal testing, UAT, and client demos.
- Awarded Consultant of the Quarter, a distinction received by 12 people across the Professional Services organization.

Selected Project Experience

- Developed a customized AEM platform for a telecommunications client, delivering over 50 UI components, full eCommerce integration, and enhanced assets taxonomy that streamlines the marketing materials creation process.
- Launched over 25 websites across different departments for a state government client, in addition to a new branding guide and a library of over 40 drag and drop UI components, increasing accessibility compliance to WCAG 2.0 Level AAA and creating a unified user experience across different state departments.
- Rebranded a financial services client's website with modern, accessible front-end design, along with a library of 29 custom UI components and 15 distinct page templates that enable efficient, code-free website updates.
- Customized AEM to be a headless content management system for a multi-billion mass media corporation to optimally store and deliver content to different streaming and webpage services.

Penn Design, Philadelphia, PA

September 2016 – May 2019

Digital Designer

- Delivered marketing strategies and branding materials for local businesses, including but not limited to Rebel Ventures, The Stuart Weitzman School of Design, Philadelphia Center of Innovation, Penn Museum.
- Produced UX mockups and built sample art portfolio sites using HTML, CSS, JavaScript.
